Thursday 12th of March

- 10:30 – 12:00 **Information Session about our Community of Practice**
During this session the Executive Committee of CHAIN5 would like to discuss with members the future of CHAIN5 as an international Community of Practice, looking at its legal status and its position in Europe, and related issues based on ideas for the coming years.
After our start in 2013 a lot of things happened, bringing level 5 in Europe more and more in the picture if it is about flexibility, learning pathways, the use of all types of qualifications and the position of them in national systems. But there is more to do, for the members and our partners.

Next to information about those issues and new developments within CHAIN5, we would like to discuss the following topics with members:

- What is in general for you the added value of CHAIN5, looking the coming years?
- What kind of activities would you like to be organized by CHAIN5, having your institution or organisation in mind?
- What themes are currently in discussion in your country, being seen as input for conferences and thematic teams?
- In what way can we extend our community of practice, looking at other issues and developments, having more experts to participate in our activities?
- What can be the role of our website, newsletters and other options for 'binding our members' in the best and most effective way?

If you're not able to attend this session, we would be very grateful if you would like to inform us in advance about your ideas (tallinn@chain5.net) .
