Skype January 2020 (1):

Exchanged information and experience with members of Rotterdam Academy, PXL Hasselt (Be) and Artevelde (Be):

Assessment of workplace learning: how to cope with the advice from the workplace and the use of rubrics. A good system in this area still has to grow and one can learn from the experiences of others.

Skype January 2020 (2):

And:

The match of the student with the workplace needs attention: how can the study program facilitate this? What if students cannot find a workplace? Work with alternative assignments executed in-house?

Conclusion: lot's of questions! So let's organize a webinar and ask a professional to inform us.

Break-outrooms

The following questions can be discussed in the break-outrooms:

- a. What is work based learning according to you? What does it mean for level 5?
- b. What do you encounter in practice? Which dilemmas do you experience? What went really well? Tips on quality assurance?
- c. How can we do it even better?
- d. How can we help each other? What is a need for?

Who makes notes? Place your groupnotes in the chat in the central room

Who will give a short wrap up afterwards?

Looking forward ...
