

CHAIN5 Annual conference, Zagreb, Croatia

11-12 March 2021

In cooperation with Craft College, Institute for Adult Education, Zagreb

Online conference

Our annual conference will be held online. In this way we can ensure that as many as possible interested colleagues and members can join the conference, also if preferred, for some specific parts of the event only.

Various topics will be discussed. We pay attention to practical matters as well as strategic matters and developments. In this way, practitioners, lecturers, teachers, education experts, programme coordinators, managers, directors, strategists and other interested colleagues can share valuable information and find each other for questions and answers, and inspiration for the near future.

Programme and registration

Below you find the programme for the annual conference. It is yet possible to register for the whole conference or just for some sessions via the website: www.chain5.net.

Participation is free of charge.

We look forward to seeing you this year 'from a safe distance'!

Danijel Đekić, Head of International Relations, Craft College Zagreb

Eric Aldewereld, member of the board of CHAIN5

Suzanne Koster, member of the executive committee CHAIN5
