15.15 – 16.45	Optional: Guided Tour Oslo, with students

Tracks and Sessions

We will have four tracks during the conference having each four sessions. They are mentioned here.

In the coming period, it will be examined whether these tracks lend themselves to a 'horizontal' programming, i.e. all sessions belonging to a track at the same time, or to a 'vertical' layout.

In the second case, the sessions are divided over the available rounds.

It will be explicitly considered whether the classification means that as many participants as possible can participate in comparable sessions.

The goal of track 1 is to connect members who are working in the same area / domain. Each session starts with a short presentation of one of the members.

Track	Session A	Session B	Session C	Session D
1	Benchmark ICT and Technics	Benchmark Economics & Creative studies	Benchmark Social studies & Health	Benchmark Hotel, Leisure and Event management
2	Quality Assurance and the role of the students in Norway. Why should they be involved and how does this help to increase the quality of education?	Norwegian Industry programs – LLL with courses developed to upskill the workplace; accredited at Level 4- 7 (led by the Social partners)	Short educational programs in a LLL context where the social partners are involved in the contents.
