

# Project-based education

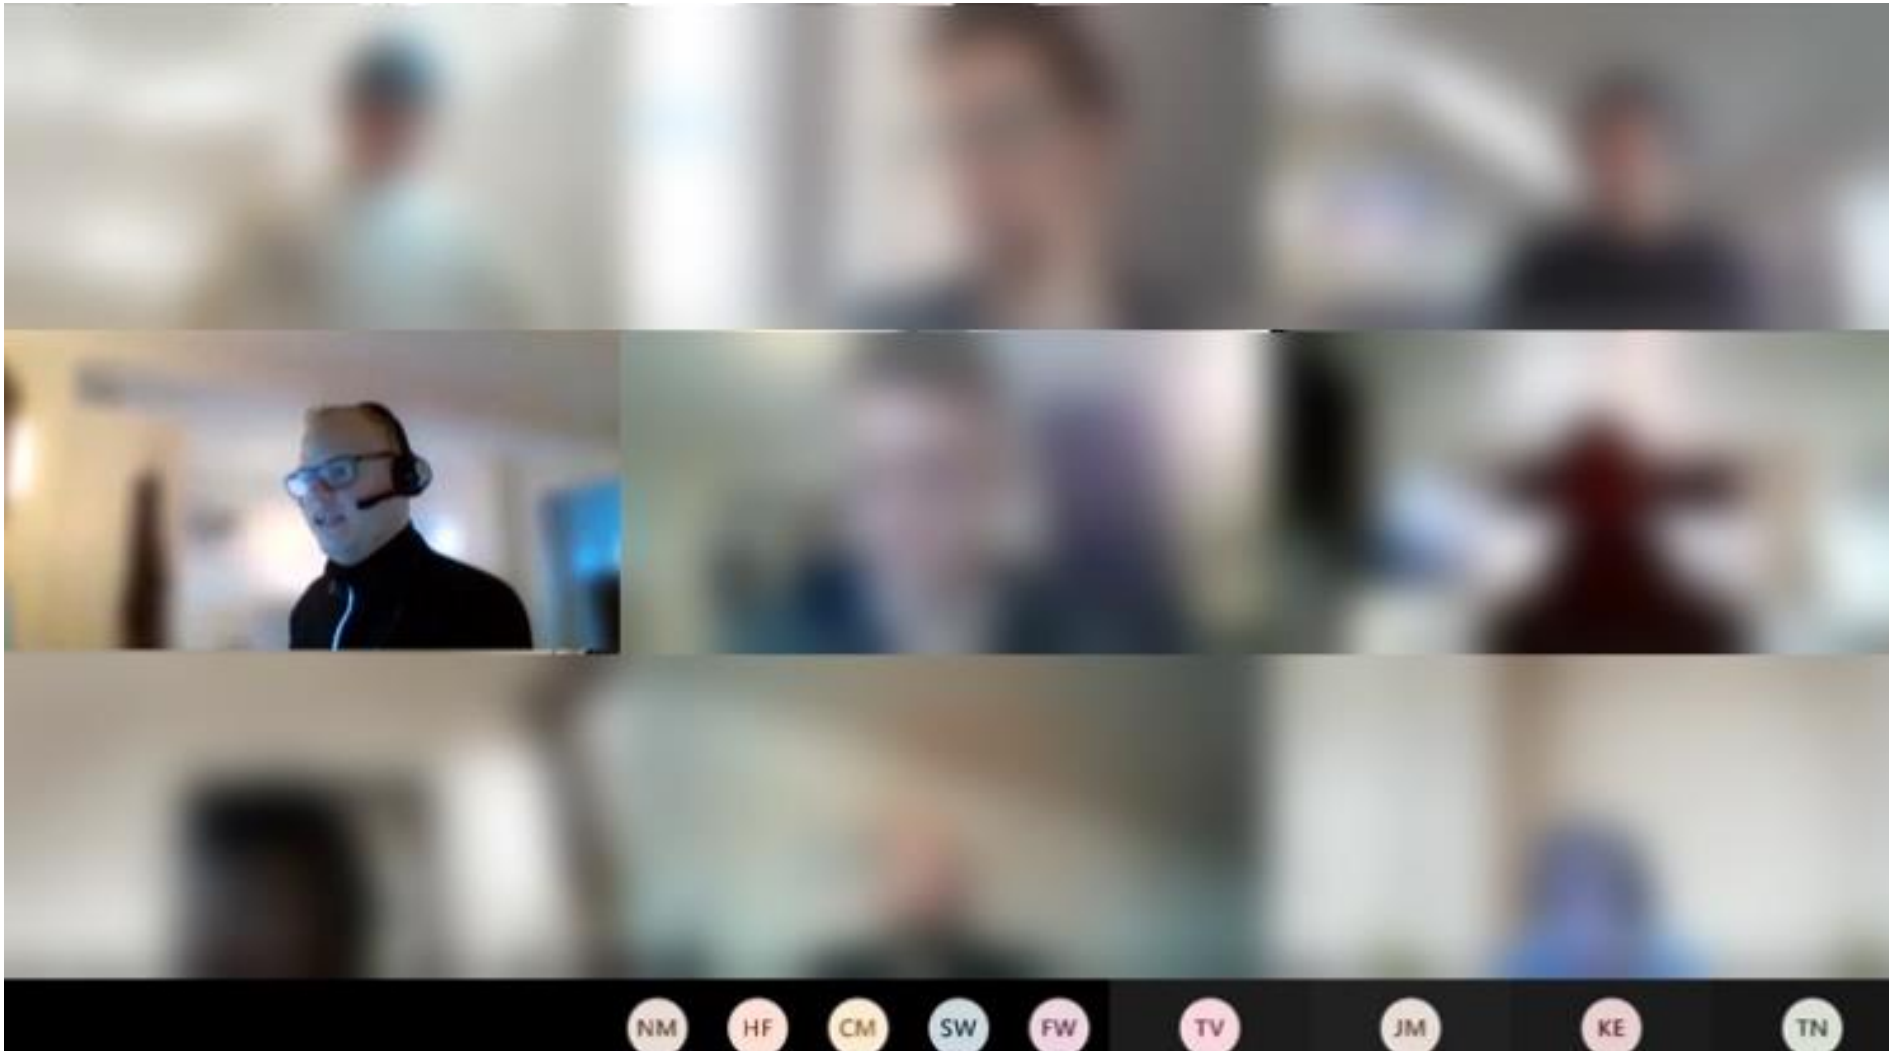

# Project-based education

- How we got started
- How it works
- What works well?
- What can get better?

# We went from this.....

# ...to this – in record time!

# What to do?!

- How to engage the students?
- How can we «see» all the students?
- How can we make students interact more
  - ...with us?
  - ...with eachother?

**We needed to «teach» less!**

# The projects

# What works?

Different ways of evaluating

Variation for the students

Learning among teachers

Colaboration between teachers

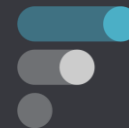

# What can we do better?

«Overlapping»  
of subjects

Student  
defined topics

Evaluating  
(Grading)
